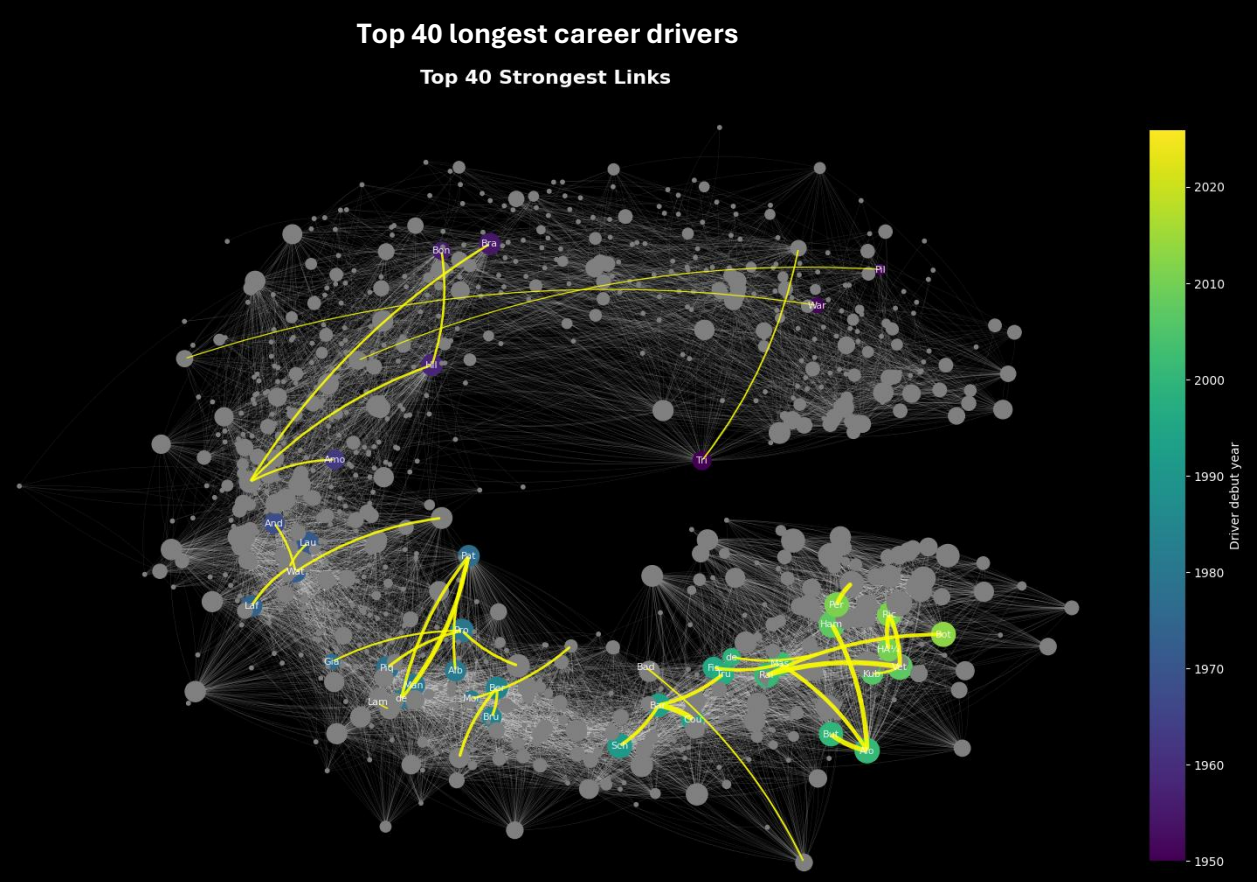
Driver debut year
2020
2010
2000
1990
1980
1970
1960
1950



Observations

1. Earlier nodes (purple) we see much longer connections, indicating longer career length
2. As the years increase, more drivers are having longer, more successful careers
    1. Thicker lines indicate direct rivalries are forming
3. Career length is not an indication of peak performance

Importance

1. Understanding the career trajectory throughout the years
2. Prioritize performance
    1. successful career both by maximizing points per season and by being a consistent mid-tier driver
